Explanation of Measures:

SL. NO.	Measures	Explanation	Target group
1.	Consecutive student lifecycle built on continuous research collaboration	<ul style="list-style-type: none">Promising students at undergraduate level will be introduced to research work by means of structured short-term undergraduate research internships at the respective collaborator's laboratories between May and July or December and January.After completion of their Bachelor's degree, successful participants of an undergraduate research internship are invited to take on a jointly-supervised Master's thesis.The Master thesis project will be designed in such a way that upon completion, a joint PhD project will consecutively be taken on, culminating in a Joint Degree.	Undergraduate, Master and PhD-Students
2.	Research Team Missions	Senior researchers are invited to apply for grants from the programme budget and conduct research team visits of up to one month with a potential collaborator from the partner institution. A research team will consist of a Principal Investigator, a post-doc and a PhD-student (or a PhD-student and Master student). The visits will serve to develop, plan and kick off new collaborative research projects. The visits may also be used to write joint proposals for external project funding.	Principal Investigators, Post-docs, PhD- and Master students

Interested students should submit the filled application form (available on OIR website), CV, letter of recommendation from IITM supervisor, official invitation letter by the RWTH faculty to OIR office, 2nd floor, IC & SR building and send soft copy to us on oir1@wmail.iitm.ac.in / oir1.iitm@gmail.com. The decision will be taken by committee members. Selected students will be informed by an email.
